## What is Creditable Coverage?

## Why a change in creditable coverage status?

### 5) Why does Regence re-evaluate the creditable coverage status of standard pharmacy plans annually?

- a. CMS changes the standard Medicare Part D benefits annually due to the average per capita Part D spending. Because of these changes, some of the Regence plans may change status. Therefore, creditable coverage status analysis needs to be performed annually.
- b. Regence has accumulated better and more recent internal data that reflects current pharmacy trends and cost controls in relation to member out-of-pocket costs.
- c. Regence provides updates to group administrators through the mail upon renewal or new enrollment.

## Which designs are impacted by the changes?

- 6) **Which pharmacy designs are impacted?**
  - a. Changes could happen upon Actuarial's annual evaluation. Plan designs could transition between creditable and non-creditable status from year to year.
  - b. Regence is not out of compliance by these changes in status.

## What do members need to do?

- 7) **Once Employer/Group is notified by Regence, (and they in turn notify their Medicare eligibles) how long do these Medicare eligibles have to elect Medicare Part D?**
  - a. A Special Election Period (SEP) allows individuals 60 days from the date on which the individual receives notice to enroll in Part D due to change in creditable coverage status.
- 8) **What is the length of the special election period (SEP)?**
  - a. 60 days from the date the individual receives the notice of status change.
- 9) **When does this special election period (SEP) begin?**

  - b. CMS could send them a letter stating they have a LEP because their coverage is listed as non-creditable.
  - c. Members then send the LEP letter along with an appeal form stating when they were notified of the status change. They can also include a copy of the notification from their group administrator.
